Report of the Event

Date: 10-06-2026

The Swachh Bharat Club of PSN College of Engineering and Technology organized a Door-to-Door Cleanliness Awareness Programme at Idaiyankulam with the objective of creating awareness among the local community about cleanliness, hygiene, proper waste disposal, and environmental protection. The programme aimed to encourage residents to adopt clean and healthy practices in their homes and surroundings.

The programme commenced with the participation of faculty members and student volunteers. The student volunteers visited households in the local community and interacted directly with the residents. They explained the importance of keeping homes and surrounding areas clean, disposing of waste properly, avoiding littering in public places, and maintaining personal and community hygiene. The student volunteers also created awareness about waste segregation, reduction of single-use plastics, proper disposal of household waste, and maintaining clean streets and public areas. Residents were encouraged to actively participate in cleanliness activities and contribute towards creating a cleaner and healthier community. The programme provided an opportunity for students to develop social responsibility and actively contribute to the objectives of the Swachh Bharat Mission.

The activity successfully promoted awareness about cleanliness and responsible waste management among the local community and supported the institution's commitment towards building a clean, healthy, and sustainable society.
